

## EMPLOYMENT OPPORTUNITIES

**SAI Consulting Engineers, Inc.** (SAI), a leading transportation design and construction management firm, is currently seeking applicants for positions in our fast-paced and growing Harrisburg, PA office. Come and join our dynamic staff and work on local and statewide transportation projects, with excellent opportunities for professional growth and advancement.

**Transportation/Highway Engineer** - Candidates should have a BS degree in civil engineering with 3-8 years design experience in transportation and related fields. Broad background experience in transportation, traffic, land development, stormwater, E&S and utilities is desired. PE preferred. Experience with the preparation/review of PennDOT Highway Occupancy Permits (HOP's), Traffic Impact Studies (TIS's) and PennDOT/PTC PS&E's a plus.

**Senior Transportation/Highway Project Engineer** - Candidates should have a B.S. in Civil Engineering with 10-15 years of experience in the production of PennDOT and/or PA Turnpike highway plans, specifications and estimates. Responsibilities will include all facets of transportation/highway design; final review and seal of PennDOT PS&E packages; supervision/training of younger highway engineers and drafters; and monitoring of budgets and schedules. Experience with Microstation/InRoads and a Professional Engineer's license is required.

All candidates must have outstanding written and verbal communication skills. This is an excellent opportunity in a small, flexible office environment to advance your career to the next level. A competitive salary/benefits package is offered. Qualified applicants may submit current resume and salary history in confidence to:
