

Transportation Planning and Design Lead

Position Description:

Urban has an exciting opportunity for an individual to lead the Transportation Planning and Design efforts for the central Pennsylvania region in our Mechanicsburg office and serve as a Project Manager on transportation planning and design projects. The position is vital to maintaining our commitment to the expanding transportation infrastructure market within Pennsylvania. As a leader in the market place, Urban has strong relationships and name recognition that presents a tremendous opportunity for someone with the desire to expand our operation. We are interested in candidates who can successfully balance the delivery of projects with a focus on quality and the acquisition of work to support our strategic growth goals.

Job Requirements

Ideal candidate must have a Bachelor's of Science in Civil Engineering and a minimum of 8 years of experience in transportation design and project management; PE is required. Previous experience with PennDOT and the Pennsylvania Turnpike is desired. Candidates should also have good written and verbal communication skills and be able to work independently.
