

WSP – Traffic Engineer – Baltimore, MD

At WSP, we are driven by inspiring the right people to be part of our future-focused business objectives. Our devotion to teamwork has allowed us to build communities and expand our skylines. Here at WSP, anything is within our reach- and yours as a WSP employee. Come join us and help shape the future!

WSP is currently initiating a search for a **Traffic Engineer** for our **Baltimore** office.

Duties and Responsibilities:

- Responsible for the design, management and delivery of traffic engineering projects;
- Develop concept level to final design traffic control device plans for construction/advertisement.
- Perform traffic operations/safety/capacity studies.

Talent is the essence of meeting our client's objectives, goals and challenges. If this sounds like a fit for you, we'd love to have that first discussion of you joining our team.

Minimum Qualifications:

- Bachelor's degree in Civil Engineering
- 3-6 years of experience in a related engineering position
- Strong background in traffic control device design in signing, pavement markings, signals, lighting, maintenance of traffic and ITS design
- Experience with traffic safety, operations and capacity analyses, signal optimization, corridor studies, and use of traffic simulation modeling.
- PE registration (or ability to obtain certification within 1 year)
- Strong communications skills and the ability to work on a team and perform projects with guidance and mentoring

Preferred Qualifications

- Hands-on experience with CADD software, including the most recent version of MicroStation and traffic engineering software such as HCS+, Synchro/Sim Traffic and Vissim.
